

Evolution's Human Capital Management Services

Companies today need more than simple payroll and tax calculation software. You need a powerful Human Capital Management (HCM) system designed to meet the complex payroll, HR, and benefits needs as well as the technology challenges of a continuously shifting business landscape.

Evolution HCM is a comprehensive SaaS-based system that provides the features and flexibility to handle most payrolls, regardless of complexity or uniqueness. Evolution's HCM solution includes not only Payroll, Payroll Tax Management, HR Management, Benefits Management and Online Enrollment, Employee Onboarding, Time and Labor Management, but also a full suite of ancillary services such as Workers' Compensation, Retirement Planning, CRM, Payroll cards and much more.
